WINEMAKING

Grapes are exclusively harvested manually in 15 kg crates. A first selection of the grape bunch is carried out in the vineyard and only mature grapes are picked. A second selection is carried out at the ageing cellar prior to treading, destemming. The cold skin maceration lasts for 12 hours and is followed by pressing. Cold débourage is followed by the fermentation using autochthonous yeasts in stainless steel vats. Sulphites are added to ensure Freshness and avoid malolactic fermentation. Elevage lasts for 6 months in french oak cask with bâtonnage. This white wine is non-clarified; non-filtered and naturally stabilised. The cuvée is limited to 1150 bottles.
